Jivi is known for his impeccable taste and great style and is regarded as one of the best-dressed men in India – but the accolades do not stop with his clothes.

A true Renaissance man, Jivi has an exuberant style and is a fabulous host. His homes in Goa and Delhi are featured in stylebooks and magazines globally. He is passionate about maintaining India's rich craft heritage and with his business partner Viki Sardesai has created the Design Laboratory. The duo have become unofficial ambassadors for India's artisans.

Jivi will share his insider knowledge of Delhi and open his magic address book to guide you through Delhi's designer paradise, be that for interiors, antiques, jewellery, fashion, or merely for trinkets. Jivi lives between Goa and Delhi, so make sure to email him in advance to work out a programme and discuss his fee. Great fun and great style.
